

Password requirements:

Your password must meet the following specific requirements to reach a required point score and be recognized by the website as a “Strong” password. It must be **at least 12 characters** that includes:

- At least one of each:
 - uppercase letters
 - lowercase letters
 - numbers
 - symbols
- No character may be repeated 3 or more times.
- No ordered numeric sequence of more than 2 characters is allowed (i.e. 123 or 321).
- No ordered or patterned sequence of adjacent characters of more than 3 characters (i.e. abcd, abab).

Follow the status on the status bar to determine whether the password is strong enough. It will change from Weak to Medium to Strong:

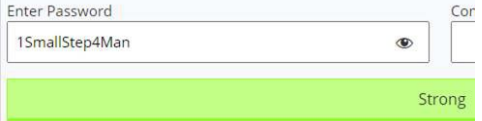

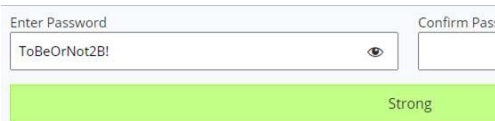

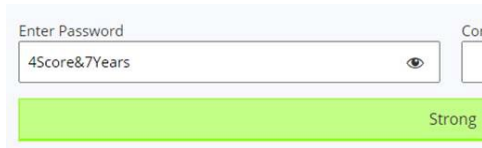

The more you mix up the elements, the more secure the password.

It is recommended that you do not use a password you use on other sites.

Another option is to use a passphrase (maybe a movie quote or a saying) that others won't guess but that may be easier to remember. You might capitalize each word and/or throw in a number and symbol to make the phrase strong enough.

Phrases are quick to type in once you've done it a few times. Just a few examples:

Next steps:

- Our team will verify your information. We usually grant access within 1 business day. If you need anything urgently in the meantime, please connect with our Wholesaling Team at 800-625-9267, Option 1.
- **You will need to set up Two Factor Authentication (2FA) within 10 days** or you will be locked out of your account. This 2FA will verify your identity when logging into the site. [Click here for instructions.](#)
